

**Hunch Power** is an Alternative Rock band from the thriving **Nottingham** music scene. Their songs are "hunch-powered" with unpredictable turns while being ridiculously catchy and reminiscent of **The Gaslight Anthem**, Manic Street Preachers, Green Day, The Clash and of course Bruce Springsteen.

Their lyrics channel the concerns of our times and their impact on individual lives. Songs brewed in a dysfunctional World where topics such as **Mental Health**, **Climate Change**, racism, war, death, work-life balance and social media isolation do matter.

Their debut single instantly caught the attention of the music press in 2022. **BBC Introducing** premiered it on radio in the UK while the legendary Rodney Bingenheimer premiered it on **Sirius XM (The Underground Garage)** in the US. Its iconic music video premiered online on **Vive Le Rock!**.

They've shared stages with up-and-coming acts such as **ALT BLK ERA**, Random Hand, Seán McGowan, Slackrr and their peers **PET NEEDS**,

They played a live-stream to raise funds for the **War Child** charity in May 2023, followed by a busy festival season across the UK including **Dot to Dot**, Call of the Wild and Right to Roam.

They're now back and reformed with their powerful fifth single "All I Do Is Survive" which **Frank Turner** mixed and mastered.
